智能岛台 smart kitchen Island

奢石 LuxuryStone Series

● Glossy Finish (亮光面) / Matte Soft Finish (柔雅面)

● GN9100 杏林春雨 (Apricot Grove)

主推产品

自然通透，温润雅致，是大宅(透光)岛台的首选。你为三餐四季的温馨时光，注入诗意与温度。

Natural, translucent, warm texture. The ultimate choice for luxury & backlit kitchen islands. Elevate your high-end home with timeless elegance and warm family moments.

Full-body salb

Characteristics:

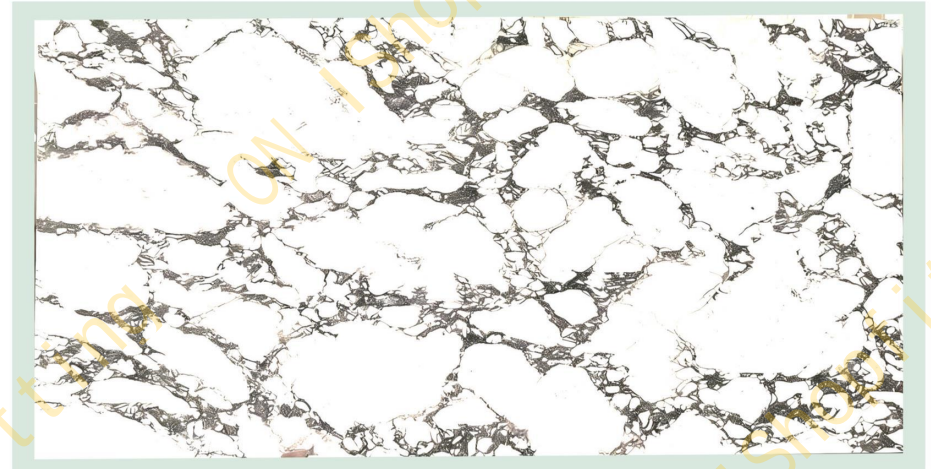

1. Non-porous surface, high density, high resistance to stain and corrosion
2. Super hardness: Moh's hardness 6
3. Low water absorption, lower than 0.03%
4. Safety, no radiation, durability
5. Free maintenance

● 2026 Hot-selling Designs(热销花色)

奢石 LuxuryStone Series

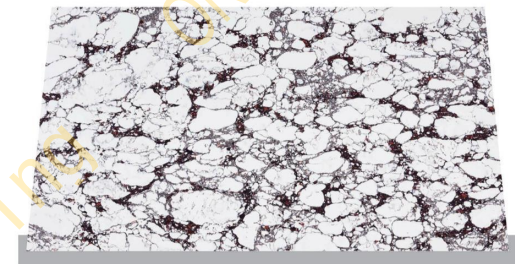

🌿 Glossy Finish (亮光面) / Matte Soft Finish (柔雅面)

● GN9103 Bvlgari
主推产品

Full-body salb

GN9102 Bvlgari purpli

粗犷大气，紫韵奢华，彰显大家风范！

Bold & grand, purple luxury, shows noble elegance!

Characteristics:

1. Non-porous surface, high density, high resistance to stain and corrosion
2. Super hardness: Moh's hardness 6
3. Low water absorption, lower than 0.03%
4. Safety, no radiation, durability
5. Free maintenance

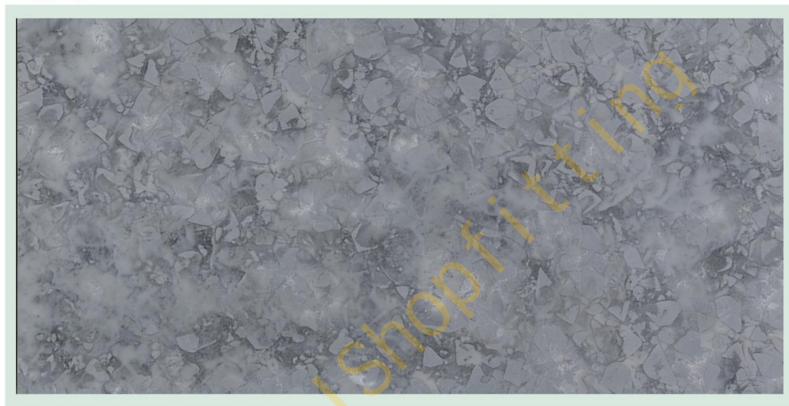

● 2026 Hot-selling Designs(热销花色)

● GN9005 Wheatfield (麦田)
主推产品

● GN9123 Sandal (檀香)
主推产品

● GN9003 Pure Jade (璞玉)

L 奢石 luxuryStone Series

● Glossy Finish (亮光面) / Matte Soft Finish (柔雅面)

● GN9009 Taj Mahal (泰姬陵)
主推产品

温润奶白，柔棕流淌，岁月沉淀下的宁静轻奢生活！

Warm milky white, flowing soft brown, quiet luxury shaped by time.

Full-body salb

Characteristics:

1. Non-porous surface, high density, high resistance to stain and corrosion
2. Super hardness: Moh's hardness 6
3. Low water absorption, lower than 0.03%
4. Safety, no radiation, durability
5. Free maintenance

Q 质量认证 Quality Certificates

zero silica stone:silica-free

一、什么是零硅石？

零硅，是零结晶硅的简称。零硅板材产生的粉尘，即便不慎进入人体肺部，也可通过肺部正常代谢功能排出体外，大幅降低粉尘对人体的危害，这是零硅板最核心的产品优势。同时，零硅板也将全面替代传统石英石，广泛应用于厨房台面、高端卫浴、家居建材等众多领域。

Silica-free refers to zero crystalline silica.

Even if dust from silica-free panels is accidentally inhaled into the human body, it can be excreted through the normal metabolic function of the lungs, greatly reducing harm to human health. This is the core advantage of silica-free panels.

Meanwhile, silica-free panels will fully replace traditional quartz stone and be widely used in kitchen countertops, high-end countertops, home building materials and other fields.

二、什么是赛丽可菲？

赛丽可菲，为 Silica-Free 的音译词，中文含义即为无硅。其核心技术，是通过熔融等化学工艺改变传统石英石中二氧化硅的分子结构，专注打造无结晶“二氧化硅的环保建材产品。赛丽可菲是一个安全、健康、环保、无毒的高品质零硅石材品牌。

silica-free is a transliteration of Silica-Free, which means "no silica".

Its core technology uses chemical processes such as melting to change the molecular structure of silica in traditional quartz stone.

We focus on developing eco-friendly building materials with non-crystalline silica.

Silica-free is a high-quality brand of silica-free panels that is safe, healthy, eco-friendly and non-toxic.

选择零硅台面？

LUXURY STONE TEXTURE · HIGH TRANSPARENCY

花色通透饱满，高度还原天然奢石纹理清晰自然，质感高级细腻，颜值与健康双重保障。

零硅健康·预防职业病

ZERO SILICON · PREVENT OCCUPATIONAL DISEASES

零硅台面--环保健康·厨卫台面升级首选！
