

Cinema & Entertainment Retail Fixture Solutions

Designed and Manufactured for Multi-Location Entertainment Environments

ABOUT US

Custom retail manufacturing for international projects.

ONI supports custom retail projects with integrated design development, engineering, multi-material manufacturing, quality control, export packaging and global delivery.

Supporting Retail Environments Across International Markets

Global Cinema Solution

www.onishopfitting.com www.onidisplay.com

The Solutions

Greater emphasis is placed on design, navigation, layout, modularity, and speed, while also meeting the needs of large cinema patrons to purchase snacks and beverages.

Global Cinema Solution

www.onishopfitting.com www.onidisplay.com

The Solutions

The spatial planning optimizes the complete arrival experience, integrating a modern self-service ticketing kiosk zone and a high-visibility digital ticket validation wall within the broader George Street foyer.

Global Cinema Solution

www.onishopfitting.com www.onidisplay.com

Global Cinema Solution

www.onishopfitting.com www.onidisplay.com

The Solutions

Combining fast retail services with a relaxed and pleasant atmosphere, it creates an upscale environment, slows down the flow of people, and guides the audience to prepare themselves for the upcoming high-quality viewing experience.

Global Cinema Solution

The Solutions

Extensive renovations across all Showcase Cinemas locations in the U.S. featured dynamic digital menu boards and striking food concession kiosks, demonstrating deep expertise in delivering turnkey solutions for cinemas.

Global Cinema Solution

www.onishopfitting.com www.onidisplay.com

The Solutions

Delivered a complete cinema rollout solution, including custom ticket counters, concession kiosks, food display areas, digital menu integration, and lobby fixtures. The standardized fixture system ensures consistent brand experience and efficient deployment across multiple cinema locations.

Global Cinema Solution

www.onishopfitting.com www.onidisplay.com

The Solutions

Developed and manufactured custom cinema fixtures, including concession counters, popcorn display units, kiosk systems, and digital menu integration. Our rollout-ready fixture solutions ensure consistent quality, efficient installation, and scalable deployment for cinema chains.

Global Cinema Solution

www.onishopfitting.com www.onidisplay.com

The Solutions

Designed and manufactured customized cinema fixtures and interior systems, including lobby kiosks, concession counters, popcorn displays, and branded feature areas. Our rollout-ready solutions help cinema chains achieve consistent design standards, efficient installation, and long-term operational support.

WHY ONI

Retail rollout projects require more than individual fixtures. They require a manufacturing partner who can develop a prototype, establish technical standards and reproduce consistent results across multiple locations.

www.onishopfitting.com www.onidisplay.com

OUR ENGINEERING CAPABILITY

www.onishopfitting.com www.onidisplay.com

Engineering before manufacturing. A repeatable rollout starts with a clear technical standard.

Retail Shop Layout & Space Planning

- 1.Full spatial planning
- 2.Traffic flow optimization
- 3.Strategic display placement
- 4.Assembly instructions
- 5.3D visualization of layout

Technical Drawing Services

- 1.Electrical layout for display units
- 2.Detailed dimensional plans for contractors
- 3.Reflected ceiling and lighting integration
- 4.Retail design management drawings

Custom Shopfitting Design

1. Display solutions: shelving units, cabinets, counters, display cases, window displays, visual merchandising elements, etc.
- 2.Utilize our extensive resources to customize your needs.

3D Rendering for Shop Interior Design

ONI Shopfitting Design specializes in transforming your project vision into reality through advanced color 3D rendering technology. This enables you to precisely preview the visual impact and spatial ambience of your products before production begins.

Approve

The prototype is not simply a sample. It becomes the technical, visual and operational standard for every future location.

Long-Term Support Beyond Store Opening

Each fixture and component can be assigned a unique part number linked to its drawing, material, finish, hardware and packing information. Damaged or updated components can be reordered individually without replacing the complete fixture.

KD MODULAR SYSTEM

ONI develops knock-down fixture systems that reduce shipping volume and make on-site handling, assembly, maintenance and future replacement easier.

- Flat-pack shipping
- Fast on-site assembly
- Flexible store adaptation
- Easy maintenance

Integrated Multi-Material Production

ONI coordinates wood, metal, glass, acrylic, lighting and branding components through one controlled manufacturing workflow.

EXPORT PACKAGING

Packaging is developed according to fixture structure, shipping method, destination and installation sequence. Fixtures can be packed by store, zone or assembly sequence to simplify receiving and installation.
