INNOVATION
PRAGMATISM

COLLABORATION
WIN-WIN

After years of dedicated R&D and production, the company has assembled a team of specialized technical personnel and product development experts.

Leveraging a dynamic team across R&D, manufacturing, marketing, and after-sales service, we employ internationally advanced production processes and technologies. Mastering multiple rigorous inspection techniques to ensure product precision and quality, we have progressively evolved into a renowned modern integrated manufacturer of display cabinets, display racks, and related products in China.

OUR CORE CAPABILITIES

TEMPERED GLASS

A multi-stage advanced polishing process imparts a mirror-like lustre and elegant texture to the display cabinets. Ultra-clear tempered glass maximises the reproduction of the watch's texture and better highlights its sparkle under light, thereby more effectively capturing the consumer's attention.

PAINT

Eco-Friendly Formaldehyde-Free Paint , An environmentally conscious paint meeting international high standards, featuring an even and smooth finish with a delicate texture and brilliant luster.

Imported Materials

Select premium hardware components to elevate the overall quality of the product, ensuring display cabinets combine aesthetic appeal with durability.

PANEL

Panel materials are carefully selected from premium global sources. We utilize eco-friendly MOF, HOF, recycled wood panels, and PIAOT panels, with formaldehyde content significantly below national standards.

STAINLESS STEEL

Premium stainless steel material,Stainless steel sheets offer high strength to withstand significant pressure; feature an aesthetically pleasing appearance with multiple surface finish options; are easy to process for shaping into various forms; promote hygiene and environmental sustainability by resisting bacterial growth; exhibit corrosion resistance for extended service life, reducing replacement costs; and are widely utilized across diverse industries.

DeRUCCI

Brand Case Study

DeRUCCI Case Study

STORE OVERALL IMAGE

LIGHTING DESIGN

A layered lighting strategy combines warm ambient lighting with focused accent lighting to create a comfortable and premium retail atmosphere. Guided and focused illumination highlights product texture and brand sophistication, enhancing the customer's visual experience and dwell time.

SPACE PLANNING

The store adopts an open layout with clear zoning and smooth circulation, balancing product display and sleep-experience functions. Scenario-based merchandising and immersive experience areas improve customer engagement and comfort, strengthening the brand's professional image and sales conversion.

DeRUCCI Case Study

MATTRESS DISPLAY

DISPLAY STRUCTURE

The mattress display adopts an open, experience-oriented structure that combines hero beds, side tables and lighting accents to highlight product craftsmanship. Layered arrangements and clear sightlines help customers compare styles, materials and comfort levels with ease.

SPACE PLANNING

The space is planned with comfortable circulation and functional zoning, balancing product display, browsing and consultation. A spacious layout enhances in-store movement while creating a premium shopping atmosphere aligned with the DeRUCCI brand image.

DeRUCCI Case Study

PILLOW DISPLAY

DISPLAY STRUCTURE

The pillow display adopts a category-led structure that combines open shelving, layered presentation and bed-scene styling to showcase different pillow types, materials and comfort features. Clear product organization helps customers compare options quickly while reinforcing a premium sleep experience.

SPACE PLANNING

The space planning integrates display walls, bed presentation and browsing areas to create a smooth customer journey. A well-balanced layout supports product discovery, touch-and-feel interaction and lifestyle storytelling, making the pillow zone both functional and inviting.

DeRUCCI Case Study

PILLOW DISPLAY

DeRUCCI Case Study

BEDDING DISPLAY

DISPLAY STRUCTURE

The bedding display combines bed presentation, coordinated home textiles and accessory merchandising to create a lifestyle-oriented retail scene. Layered product placement helps highlight fabric texture, color matching and collection coordination, allowing customers to understand the full bedding solution at a glance.

SPACE PLANNING

The space planning integrates bedding walls, feature beds and browsing zones to form a clear and comfortable customer path. A balanced layout supports product discovery, touch-and-feel interaction and visual storytelling, strengthening the premium brand atmosphere of the bedding display area.

DeRUCCI Case Study

SLEEP EXPERIENCE CENTER

 AIRLAND 雅蘭

AIRLAND

Brand case study

AIRLAND Case Study

MATTRESS DISPLAY

HIGH-END BRAND SPACE DESIGN

Dark finishes, warm lighting and room-like settings create a premium sleep environment that strengthens brand value.

MATTRESS DISPLAY STRUCTURE

Layered mattress platforms, wall visuals and accessory displays make each product easy to view, compare and experience.

AIRLAND Case Study

PILLOW DISPLAY

DISPLAY LOGIC

Category-led presentation with shelf display combined with a lifestyle bed scene, helping customers quickly compare pillow types, comfort levels, and related sleep products.

CABINET STRUCTURE DESIGN

Open shelving with layered compartments, clear sightlines, and integrated product zones enhances visibility, access, and organization, delivering a clean, premium retail presentation.

AIRLAND Case Study

BEDDING DISPLAY

DISPLAY LOGIC

Lifestyle-led bedding presentation combines hero scenes, packaged products and coordinated home textiles, helping customers quickly understand product categories, style matching and complete sleep solutions.

CABINET STRUCTURE DESIGN

Integrated shelving with open display tiers, illuminated compartments and lower storage improves product visibility, category organization and easy access, while creating a clean and premium retail presentation.

AIRLAND Case Study

SLEEP EXPERIENCE CENTER

PREMIUM BRAND SPACE

Refined materials, soft lighting and home-like room settings shape a calm premium atmosphere, turning the sleep center into a trusted brand destination.

EXPERIENTIAL RETAIL DESIGN

Open circulation, staged bedroom scenes and consultation zones invite customers to slow down, compare comfort and understand the lifestyle value behind each solution.

DISPLAY-TO-SALES EXPERIENCE

Mattress, bedding and accessory displays are coordinated around trial points, guiding customers naturally from visual discovery to product testing, consultation and purchase.

SLEEMON

喜临门

Brand Case Study

SLEEMON Case Study

MATTRESS DISPLAY

DISPLAY STRUCTURE DETAILS

Layered product walls, hero beds and sidemodules clarify comfort levels, materials and selling points from the first glance.

CUSTOMER EXPERIENCE AREA

Trial beds are framed like room scenes, leaving enough circulation for lie-down testing and staff consultation.

SLEEMON Case Study

MATTRESS DISPLAY

PRODUCT DISPLAY & SALES

Material close-ups, mattress labels and repeated bed settings turn comparison into a guided sales path from discovery to upgrade choice.

SLEEMON Case Study

PILLOW DISPLAY

DISPLAY LOGIC

Pillows are grouped by support, height and usage scenario, helping customers compare comfort benefits before moving into product trial.

CABINET STRUCTURE DESIGN

Open shelves and illuminated grid cabinets keep each pillow visible and reachable, while the vertical structure builds a strong category wall.

SLEEMON Case Study

SLEEP EXPERIENCE CENTER

PREMIUM BRAND SPACE

Warm finishes, layered lighting and hotel-like sleep scenes build a high-end environment that makes the brand feel calm, expert and trustworthy.

DISPLAY-TO-SALES EXPERIENCE

Feature beds, product walls and consultation points are connected as one journey, moving customers from inspiration to trial and purchase.

MLILY

Brand Case Study

MLILY Case Study

MATTRESS DISPLAY
