GUANGZHOU ONI SHOPFITTING LIMITED
广州禧洲实业贸易有限公司

OUR MAIN CLIENTS

Many brands and retailers have leveraged our services to drive their business growth. With our unique blend of expertise, ONI delivers innovative solutions for your store fit-out and display projects—wherever you are in the world.

DeRUCCI 慕思

TOPTOY

ONI CONNECTS THE THREE DISCONNECTION POINTS INTO A SINGLE DELIVERY CHAIN.

The same set of standards applies throughout the entire process, extending from design validation all the way to the site at the time of opening.

UNDERSTAND · ENGINEER · VALIDATE · DELIVER

01

Understanding

Store formats, brand intent, customer flow, and replication constraints.

02

Engineering

Structure, materials, lighting, storage, electrical systems, and manufacturability

03

Validation

Prototypes, pre-assembly, quality inspection standards, and packaging tests

04

Delivery

Production control, export coordination, installation documentation, and issue closure.

RECURRING FIXTURE DEMAND ACROSS SOUTHEAST ASIA

When Chinese brands enter Southeast Asia, they typically establish market touchpoints through four offline formats:

01

Shopping Mall Store

02

Brand Flagship Store

03

Product Experience Store

04

Shop-in-Shop Counter

Custom display fixtures are no longer a one-time purchase, but a long-term operational capability for a brand's overseas expansion.

WHAT WE DELIVER IS NOT JUST FIXTURES, BUT A COMPLETE STORE EXECUTION SYSTEM.

A COMPLETE RETAIL EXECUTION SYSTEM

01 Space & Display

Whole-store fixtures, wall cabinets, island displays, experience tables, checkout counters, and specialized counters.

02 Engineering & Materials

Detailed shop drawings, structural joints, material samples, lighting, and hardware configurations.

03 Validation & Manufacturing

Prototype approval, pre-assembly verification, in-process quality control, and finished product protection.

04 Export & Installation

Zoning and numbering, packing lists, container loading logic, installation instructions, and support.

**The manufacturing foundation
determines whether promises
can be delivered.**

25⁺

Years of Custom Commercial Space Experience

- Design comprehension and engineering detailing
- Multi-material and multi-process collaborative manufacturing
- Full-scale pre-assembly and quality inspection
- Seamless integration of export packaging and installation

Transforming Chinese manufacturing capabilities into the certainty
of on-time overseas store openings.

ONE-STOP RETAIL EXECUTION SOLUTION

From design comprehension to export delivery, a unified set of standards runs through the entire project process

Custom Display Fixtures

Engineering detailing ·
Prototyping · Production

Experience Stores & Kiosks

Lighting · Hardware ·
Storage · Maintenance

Full-Store Fit-Out

Packaging · Signage ·
On-site coordination

Premium Showcases

Glass · Metal · Fine finishes

MANUFACTURING CAPABILITY BEHIND EVERY STORE

Manufacturing capabilities determine whether a project can be stably executed. Engineering, pre-assembly verification, and finished product protection are not just backstage processes; they are an integral part of the brand experience.

FROM BRAND CONCEPT TO STORE OPENING

Every stage has clearly defined confirmation contents, responsible parties, and delivery standards.

PROJECT PROCESS

Throughout our collaboration, we will maintain close communication with our clients. Any questions or concerns will be promptly addressed to ensure the delivery of products that meet and exceed client expectations.

PROJECT CASE REFERENCE • TRENDY COLLECTIBLES & SELECT SHOPS

Case Reference

KEY HIGHLIGHTS

- Glass boutique cabinets and illuminated tall cabinets
- Modular islands and interchangeable graphics
- Balancing display capacity with customer flow

CASE 01 · KKV

Case Reference

KEY HIGHLIGHTS

Trendy collectible formats have high SKUs and fast-changing themes, requiring high-capacity displays, IP visual expression, and rapid merchandising capabilities.

KKV Case Study — Malaysia

The Solutions

- Iconic Industrial-Pop Aesthetics: Engineered a striking yellow architectural portal and fluted wall panels, seamlessly contrasted with raw metal grid ceilings and linear LED lighting.
- Zoned Modular Shelving: Deployed clean, white modular gondolas paired with color-coded thematic zones (like the teal "Healing Creation House") to organize extensive inventories effortlessly.

KKV Case Study — Bangkok, Thailand

The Solutions

- Playful Visual Wayfinding: Integrated creative, highly photogenic decors such as hanging oil-drum lights, colored tire installations, and playful traffic-sign navigation systems.
- Zoned Modular Shelving: Deployed clean, white modular gondolas paired with color-coded thematic zones to organize extensive inventories effortlessly and elevate the shopping experience.

KKV Case Study — Philippines

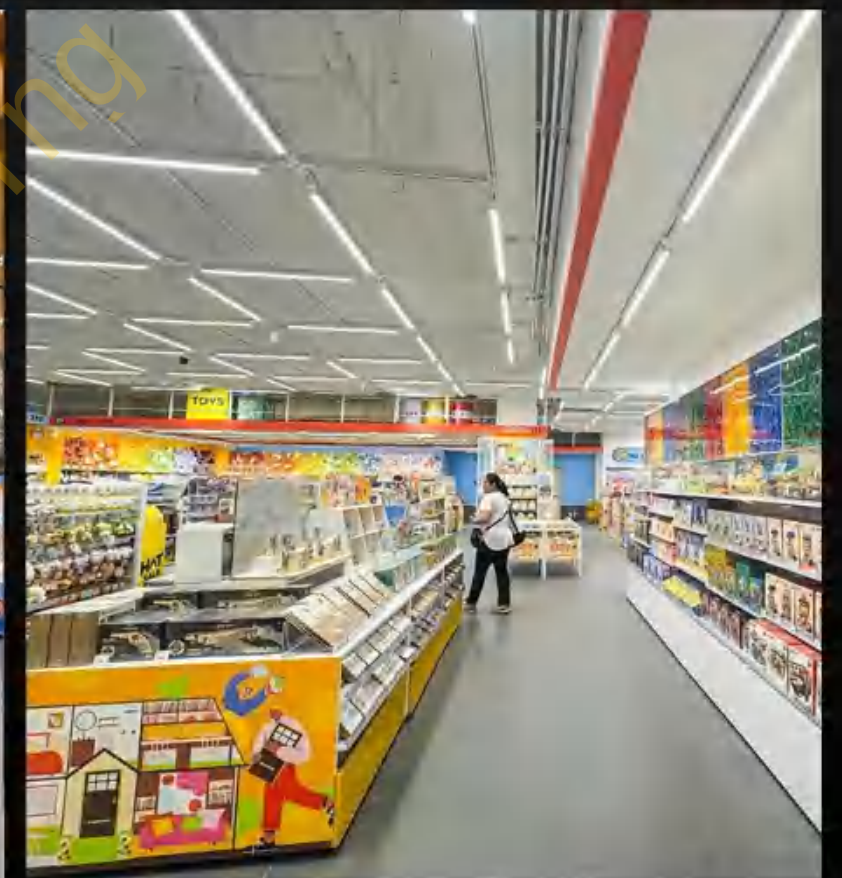

The Solutions

- Immersive Display Matrix:

Crafted massive, floor-to-ceiling pegboard walls (like the signature noodle wall) to showcase high-volume products with overwhelming visual impact.

- Flexible Modular Fixtures:

Deployed clean, white modular bins and tiered shelving to organize extensive inventories efficiently and maintain clear navigation.

KKV Case Study — Vietnam

The Solutions

- Modular Display Matrix:

Deployed clean, white modular gondolas and tiered shelving to organize extensive inventories efficiently with overwhelming visual impact.

- Playful Visual Wayfinding:

Integrated creative, highly photogenic decors such as overhead traffic signs and color-coded thematic zones to playfully elevate in-store navigation.

CASE 02 · X11

Case Reference

KEY HIGHLIGHTS

The market is focused on displaying figurines, blind boxes, and models, with a strong demand for premium display cases and illuminated tall cabinets.

X11 Case Study — Indonesia

The Solutions

· Metallic Modular Fixtures:

Engineered sleek, silver-metallic modular gondolas featuring vibrant, interchangeable graphic lightboxes to dynamically highlight diverse IPs.

· Immersive Display Walls:

Crafted continuous, floor-to-ceiling illuminated glass cabinets to showcase massive collections with a museum-like visual impact.

X11 Case Study — Kuala Lumpur

The Solutions

· Matrix Illuminated Facade:

Engineered a striking exterior featuring a continuous illuminated grid, establishing a highly recognizable and futuristic brand identity.

· Metallic Modular Fixtures:

Deployed sleek silver gondolas with vibrant blue illuminated bases to dynamically highlight diverse blind boxes and plushies.

CASE 03 · POP MART

Case Reference

KEY HIGHLIGHTS

IP-exclusive customized counters, themed display cases,
and glass boutique cases

POP MART Case Study — Bangkok

The Solutions

- Mind-Bending Visual Architecture:

Engineered dramatic, continuous flowing lines across the floors and ceilings,culminating in a mesmerizing hypnotic vortex tunnel to draw customers in.

- Custom Curved Showcases:

Crafted bespoke, retro-futuristic curved shelving and central island counters,blending vibrant color blocking with integrated LED halos to highlight collectibles.

POP MART Case Study — Bangkok

The Solutions

- Classical Pastel Aesthetics:

Engineered intricate pink boiserie, argyle patterns, and ornate pastel moldings to construct a dreamy, dessert-themed architectural backdrop.

- Bespoke Themed Fixtures:

Crafted custom dining sets featuring checkerboard tables and bespoke chairs with 3D character reliefs, ensuring every touchpoint resonates with the brand.

POP MART Case Study — Singapore

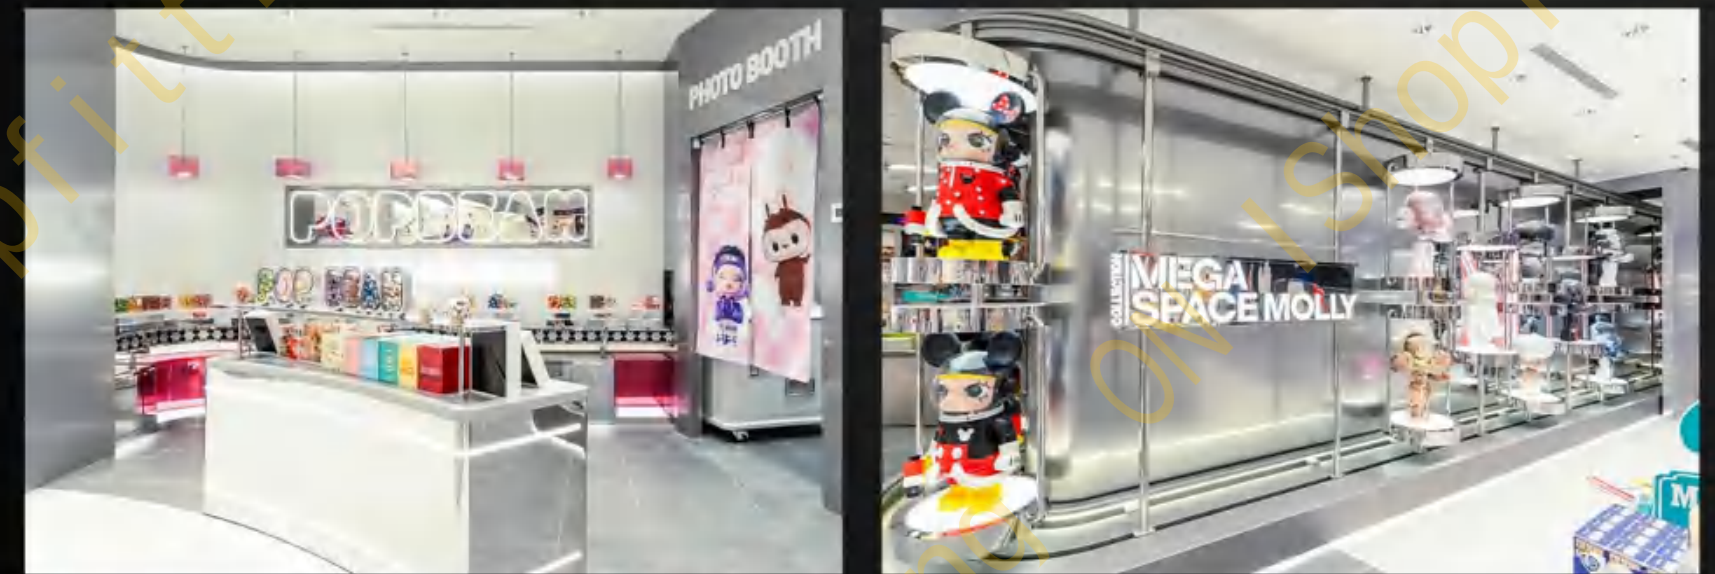

The Solutions

· Metallic Architectural Displays:

Engineered sleek, brushed stainless steel wall panels and bespoke cylindrical shelving, creating a striking, premium backdrop for collectible figures.

· Dynamic Visual Integration:

Seamlessly integrated large-scale illuminated ceiling panels and neon signage to amplify the futuristic atmosphere and highlight monumental IP sculptures.

CASE 04 · TOP TOY

Case Reference

KEY HIGHLIGHTS

Large store area, multiple display areas, customized cabinets, and themed displays

TOP TOY Case Study — Thailand

The Solutions

- Fairytale Architectural Elements:

Engineered bespoke arched wall niches and pastel color-blocking facades to establish a dreamy, highly photogenic brand identity.

- Illuminated Modular Fixtures:

Deployed premium wood-grain display cabinets with integrated LED base lighting and retro checkerboard accents to dynamically highlight diverse IP collections.

TOP TOY Case Study — Indonesia

The Solutions

- Illuminated Modular Fixtures:

Deployed premium display islands with integrated LED base lighting and clear acrylic enclosures to dynamically highlight diverse IP collections.

- Thematic IP Integration:

Seamlessly embedded oversized character sculptures and vibrant zone signage to create dynamic visual focal points that elevate the in-store journey.

PROJECT CASE REFERENCE · BEAUTY & SKINCARE

Case Reference

KEY HIGHLIGHTS

- Primarily located in department store counters and independent boutique shops
- High standards for display case aesthetics, lighting, materials, and craftsmanship
- Steady demand for standardized customization and high repeat purchase rates

THE COLORIST

CASE 01 · THE COLORIST

Case Reference

KEY HIGHLIGHTS

The main features are open-style makeup experience counters, multi-layered island display counters, and tall skincare display counters, with standardized whole-store cabinet customization.

THE COLORIST Case Study — Malaysia

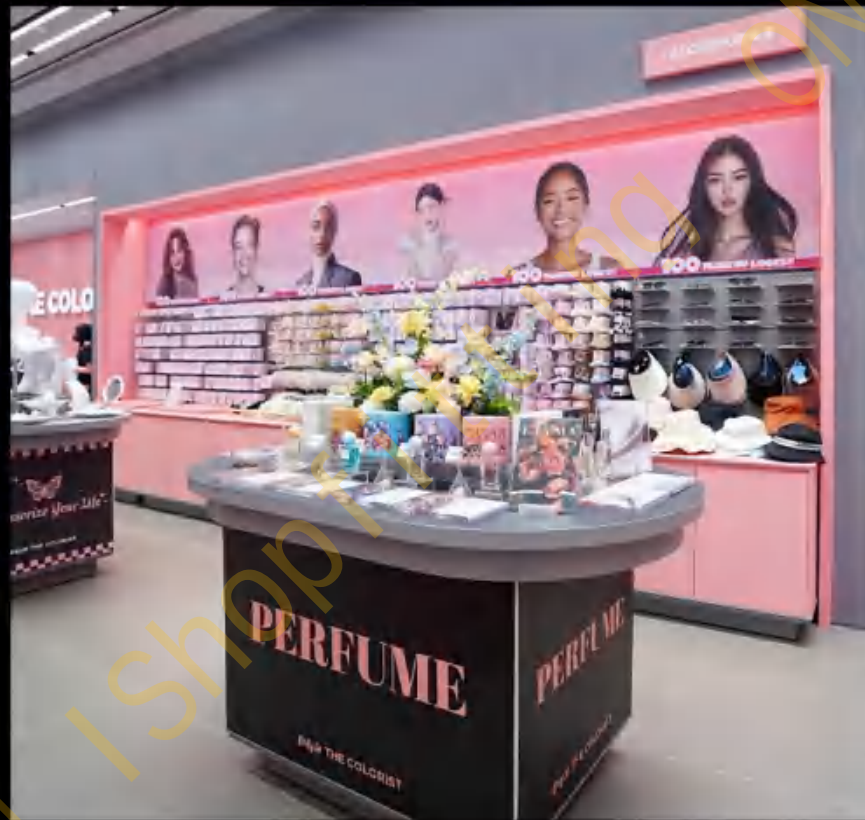

The Solutions

- Iconic Monochromatic Aesthetic:

Engineered a striking, all-pink architectural facade and interior fixtures to establish a highly recognizable and photogenic brand identity.

- High-Density Modular Shelving:

Deployed precision-crafted, multi-tiered display walls and central islands to organize an extensive range of beauty products with overwhelming visual impact.

THE COLORIST Case Study — Malaysia

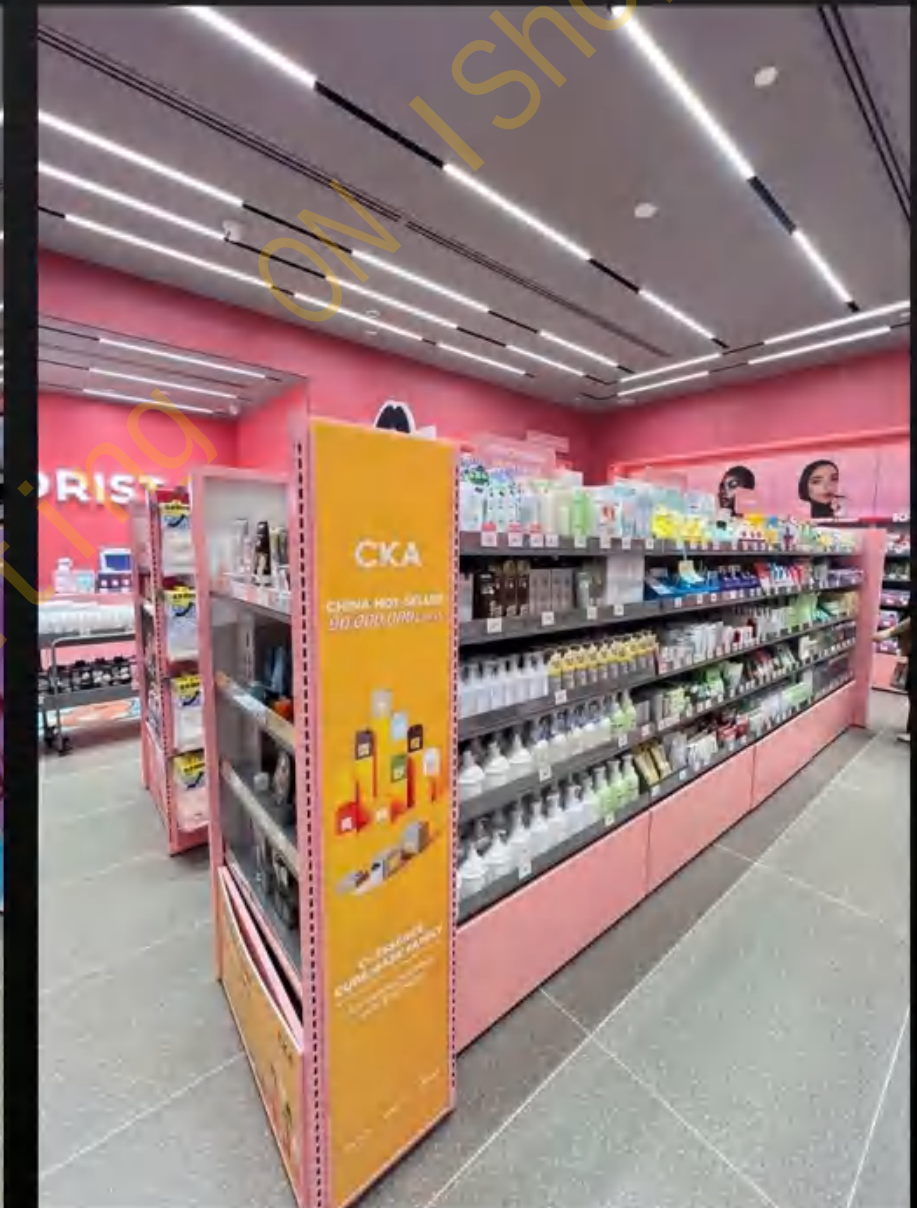

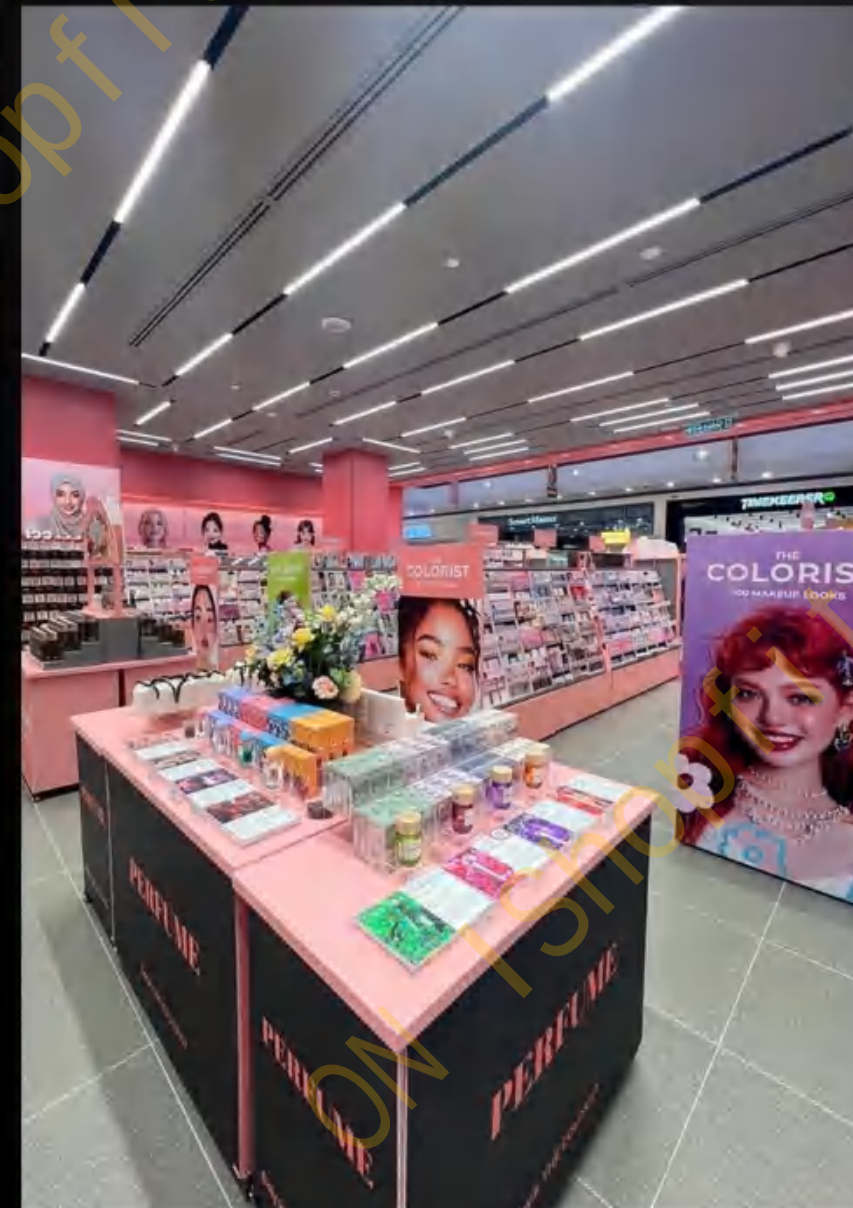

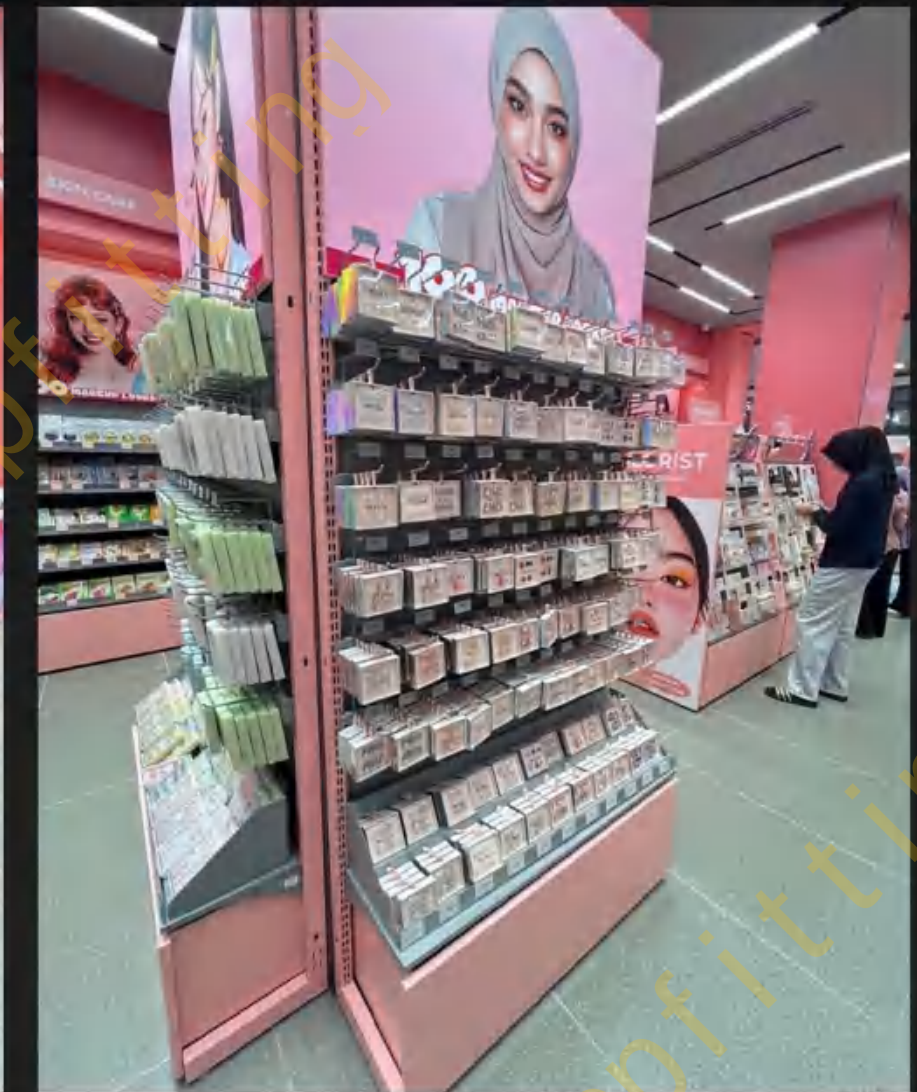

The Solutions

- Iconic Monochromatic Aesthetic:

Engineered a bold, all-pink architectural facade and interior fixtures to establish a highly recognizable and photogenic brand identity.

- High-Density Modular Shelving:

Deployed precision-crafted, multi-tiered display walls and central islands to organize an extensive range of beauty products with overwhelming visual impact.

THE COLORIST Case Study — Philippines

The Solutions

- Thematic Islands & Counters: Crafted minimalist pink checkout counters and multi-tiered interactive testing islands / to anchor the vibrant space and facilitate a seamless, hands-on shopping experience.
- Dynamic Visual Zoning: Integrated oversized, illuminated graphic backdrops featuring diverse makeup looks / to dynamically guide the customer journey across distinct beauty categories.

THE COLORIST Case Study — Vietnam

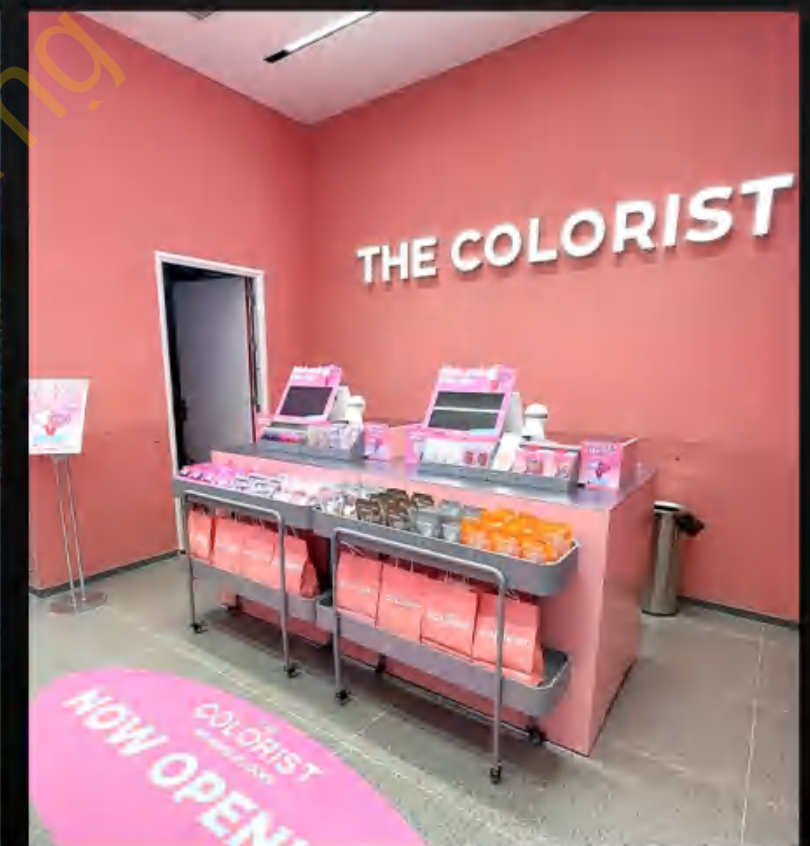

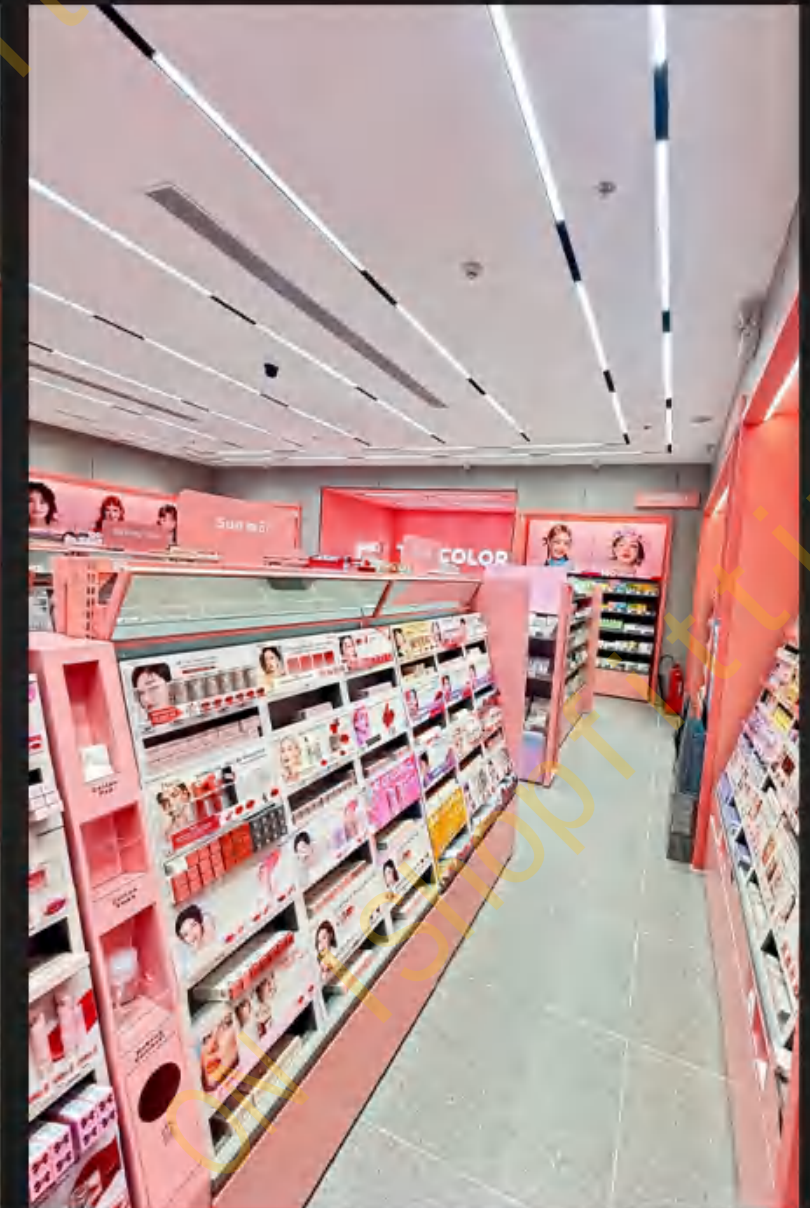

The Solutions

- Chromatic Display Matrix:

Engineered dense, floor-to-ceiling wall bays and modular freestanding gondolas / to present an overwhelming variety of cosmetics with immaculate, color-coded precision.

- Experiential Hubs: Crafted minimalist check-out zones and dedicated interactive testing islands / ensuring fluid customer circulation and unhindered hands-on engagement.

- Linear Illumination & Zoning: Deployed striking continuous linear ceiling lights paired with bold, illuminated graphic friezes / to enhance spatial depth and intuitively guide shoppers through distinct beauty categories.

PROJECT CASE REFERENCE . HOME FURNITURE / WHOLE-HOUSE CUSTOMIZATION

Case Reference

CASE 01 · KUKA

Case Reference

KEY HIGHLIGHTS

Large-scale home furnishing experience showroom,
sofa real-life experience hall, whole-store home furnishing
display cabinets, sample display cabinets

KUKA Case Study — Thailand

The Solutions

- Immersive Scenarios: Designed fully styled, realistic room sets—from cozy lounges to luxury walk-in closets— / allowing customers to easily visualize the products in a home setting.
- Smart Zoning: Utilized slatted wood panels and sleek open shelving units / to create distinct functional zones while maintaining a bright, interconnected flow.

KUKA Case Study — Vietnam

The Solutions

- Immersive Home Scenarios:

Crafted fully styled, realistic room sets—from cozy lounges to tranquil bedrooms— / allowing customers to easily visualize their ideal living spaces.

- Smart Architectural Zoning:

Engineered elegant wood-slatted screens and sleek shelving units / to divide functional areas while maintaining a bright, interconnected flow.

CASE 02 · LINSY

Case Reference

KEY HIGHLIGHTS

Showrooms featuring actual installations of cabinetry, wardrobes, and whole-home custom solutions; bespoke cabinetry, display units, and spatial display fixtures.

LINSY Case Study — Singapore

The Solutions

- Immersive Room Sets: Designed fully styled living, dining, and bedroom scenarios / allowing customers to easily visualize the pieces within their own homes.

CASE 03 · DERUCCI

Case Reference

KEY HIGHLIGHTS

Centered on large-scale, immersive experience showrooms, the business model is characterized by large-format cabinetry, a high degree of customization, and a strong demand for turnkey store solutions.

DeRUCCI Case Study — Vietnam

The Solutions

· Central AI Highlight:

Engineered a striking focal point with a glowing circular podium / and overhead curved digital screens to dynamically present the flagship AI mattress.

· Digital Product Walls:

Seamlessly embedded informative LED screens into sleek wall cabinets / to effectively communicate the ergonomic benefits of pillows and sleep accessories.

· Engaging Touchpoints:

Blended professional sleep consultation areas with playful elements / like a custom branded claw machine to deliver a relaxed, memorable shopping journey.

DeRUCCI Case 2 Study — Vietnam

The Solutions

· Futuristic Trial Zones:

Engineered striking experiential areas featuring illuminated archways and overhead digital screens / to dynamically visualize real-time AI sleep data.

· Integrated Digital Displays:

Seamlessly embedded LED informative screens and illuminated shelving into sleek wall panels / to elegantly present the ergonomic benefits of premium bedding.

· Dynamic Architectural Facade:

Crafted a modern, dark-toned exterior integrated with large-scale LED digital billboards / to establish a powerful, high-tech brand identity.

DeRUCCI Case Study — Malaysia

The Solutions

- Elegant Architectural Accents:

Engineered sophisticated fluted wall panels with integrated linear ambient lighting / to establish a warm, premium bedroom atmosphere.

- IElegant Architectural Accents:

Engineered sophisticated fluted wall panels with integrated linear ambient lighting / to establish a warm, premium bedroom atmosphere.

- Optimized Trial Zones:

Crafted spacious, well-organized display areas with clear informative touchpoints / to guide customers through a seamless, personalized sleep journey.

PROJECT CASE REFERENCE ·

APPAREL & LINGERIE /

FAST FASHION

Case Reference

KEY HIGHLIGHTS

- High store density and a high degree of standardization
- Unified requirements for a complete store fit-out, including garment racks, island display units, feature display cabinets, and checkout counters.

CASE 01 · HLA

Case Reference

KEY HIGHLIGHTS

A leading menswear chain brand with an extensive store network, featuring standardized menswear display units, mannequin display cases, and storage cabinets for merchandise and materials.

HLA Case Study — Malaysia

The Solutions

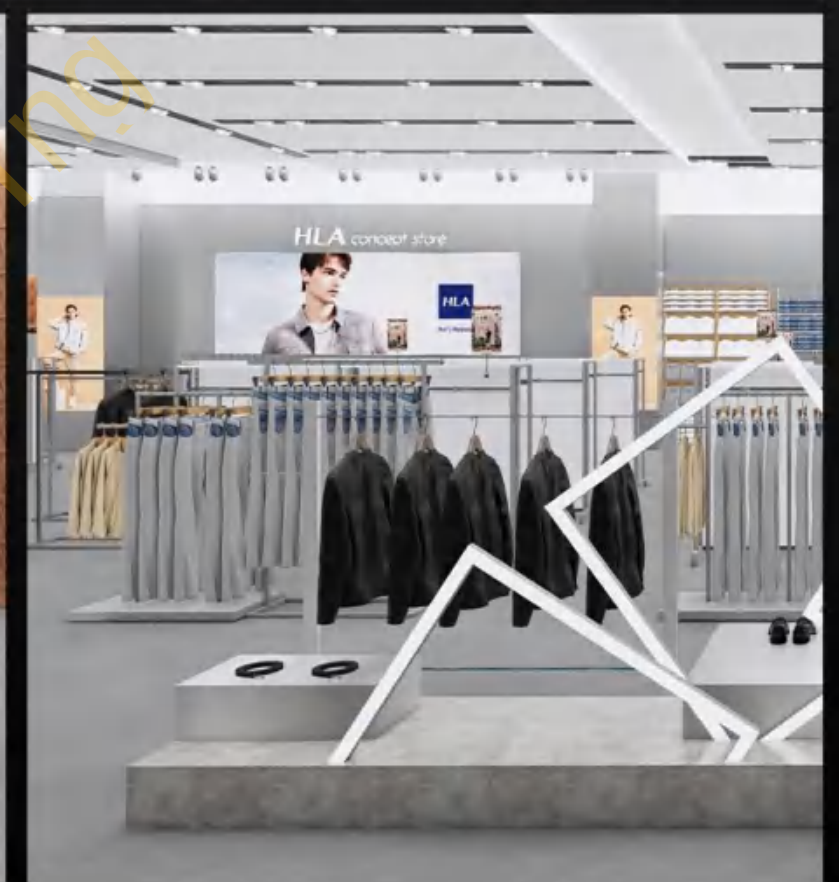

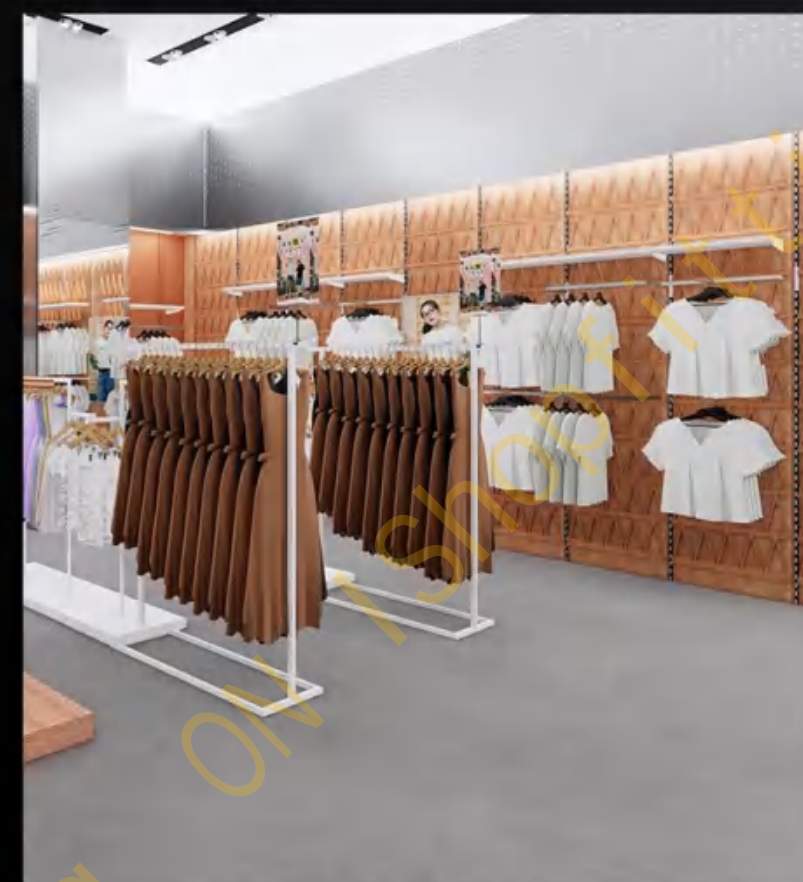

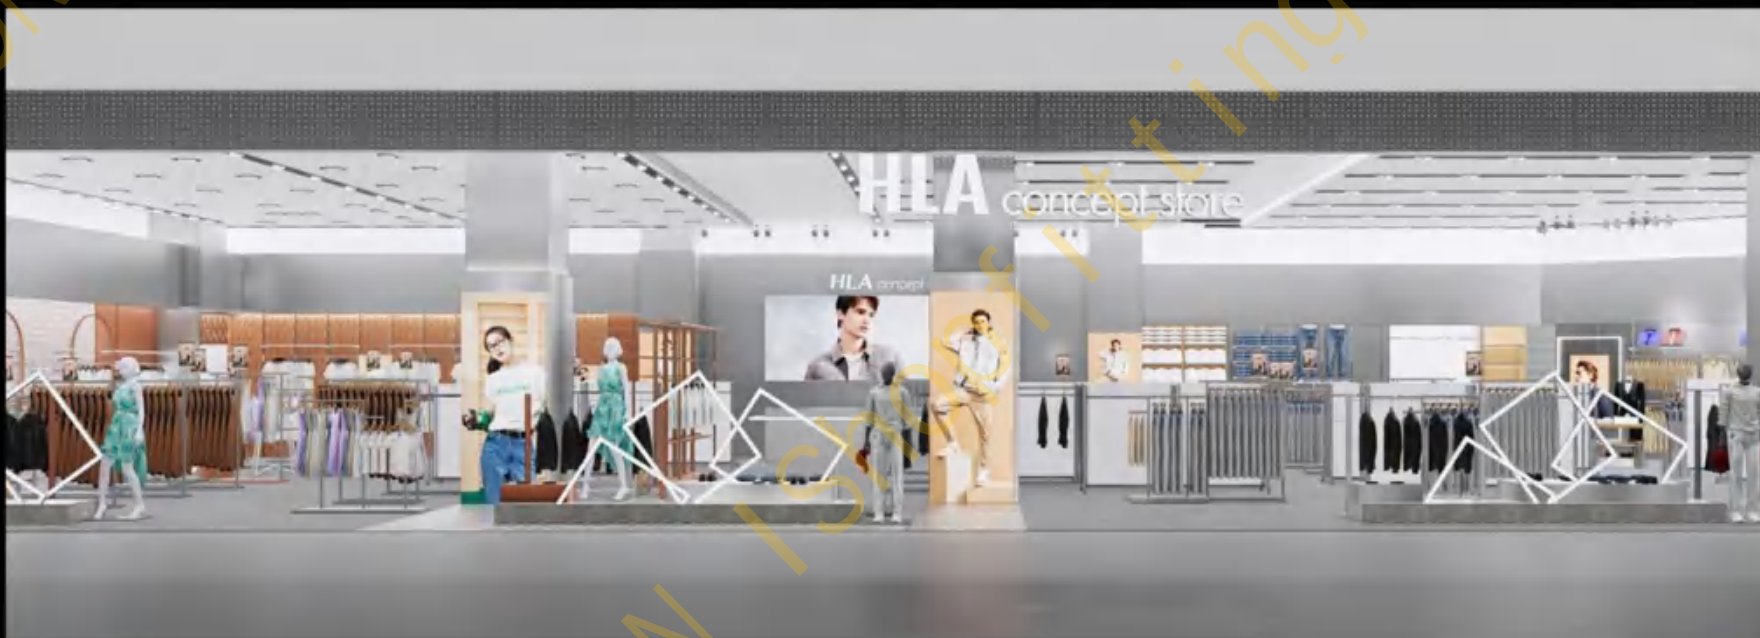

- Minimalist Aesthetics: Engineered a crisp white and light wood color palette / to establish a fresh, highly organized, and welcoming brand environment.
- Modular Fixtures: Crafted custom curved metal racks with perforated details / alongside versatile wall-mounted wooden cubbies to streamline product displays.
- Dynamic Visuals: Integrated large-scale illuminated lightboxes and precision track lighting / to highlight key collections and drive impactful brand storytelling.

HLA Case Study — Kuala Lumpur

The Solutions

- Minimalist Metallic Aesthetics: Engineered sleek silver-grey pillars with precision perforated detailing / to establish a clean, futuristic, and premium structural perimeter.
- Geometric & Modular Fixtures: Crafted custom illuminated geometric display pedestals and versatile modular racks, / seamlessly combining pristine white metal with warm wood accents.

HLA Case Study — Vietnam

The Solutions

- Minimalist Aesthetics: Engineered a crisp white and neutral color palette / to establish a fresh, highly organized, and welcoming brand environment.
- Modular Fixtures: Crafted custom white metal racks and versatile wall-mounted grid systems / to streamline product organization and maximize merchandising capacity.

CASE 02 · URBAN REVIVO UR

Case Reference

KEY HIGHLIGHTS

A high-end fast-fashion brand featuring spacious stores equipped with premium custom garment display units and themed exhibits.

URBAN REVIVO UR Case Study — Malaysia

The Solutions

- Architectural Arches & Counters:

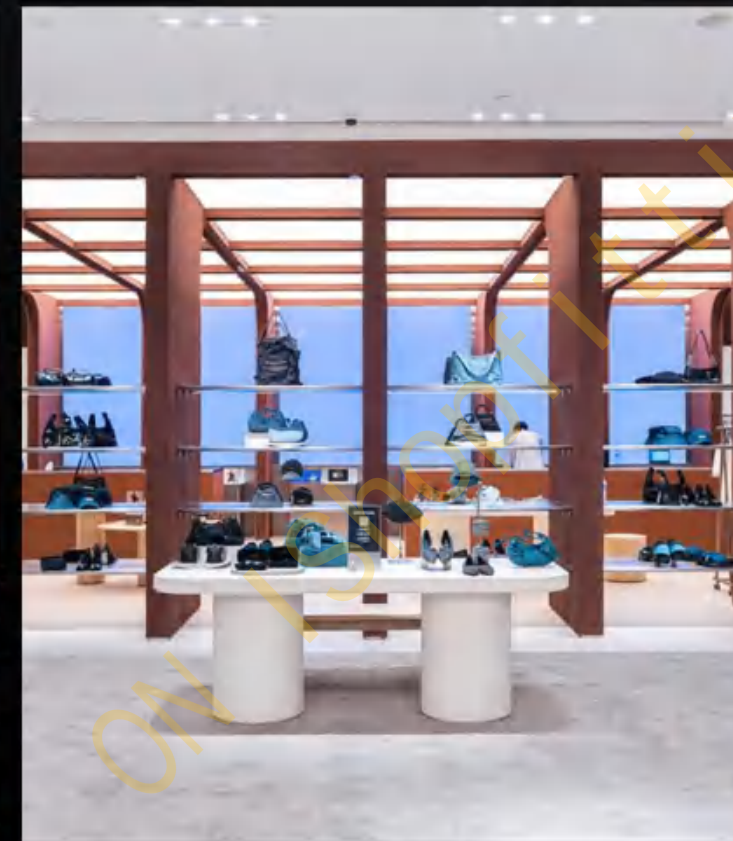

Constructed striking terracotta-toned structural arches / alongside minimalist, monolithic checkout counters to establish a premium spatial framework.

- Bespoke Display Fixtures:

Crafted custom bronze-toned metal clothing racks and floating wall shelves, / complemented by sleek circular podiums to showcase apparel like art pieces.

- Immersive Fitting Rooms & Tech Facade:

Engineered a high-end fitting room corridor featuring oversized mirrors and illuminated cabins, / whilst wrapping the exterior in dynamic LED screens for high-impact branding.

URBAN REVIVO UR Case Study — Singapore

The Solutions

- Minimalist Clothing Racks: Engineered sleek, minimalist black metal hanging rails / to ensure clean, organized, and high-density apparel presentation without visual clutter.
- Modular Island Counters: Deployed dark-toned, geometric modular display islands / to effectively organize folded garments and elegantly showcase accessories like art pieces.
- Theatrical Art Installations: Integrated dramatic, bespoke structural installations—such as the intricate string art centerpiece— / to transform the retail space into an interactive visual exhibition.

URBAN REVIVO UR Case Study — Thailand

The Solutions

- Minimalist Display Racks: Engineered sleek, freestanding metal hanging racks and geometric display blocks / to showcase apparel with clean, organized precision.
- Dynamic Spatial Flow: Integrated illuminated ceiling grids and curved architectural elements / to seamlessly guide navigation and elevate the immersive shopping experience.

CASE 03 · NEIWAI

Case Reference

KEY HIGHLIGHTS

Department store counters, dedicated lingerie display units, and affordable luxury boutique display cases.

NEIWAI Case Study — Singapore

The Solutions

- Organic Spatial Layout: Designed curved walls, soft architectural lines, and illuminated ceiling coves / to create a continuous, soothing flow throughout the boutique.
- Minimalist Display Racks: Engineered sleek, tubular brushed-metal hanging racks anchored by natural stone bases / to present apparel with elegant simplicity and visual lightness.

PROJECT CASE REFERENCE · SPORTSWEAR RETAIL

KEY HIGHLIGHTS

- Brand image must be consistent;
- Includes sports product display cabinets, footwear and apparel display stands, themed image cabinets, etc.

CASE 01 · ANTA

Case Reference

ANTA Case Study — Thailand

The Solutions

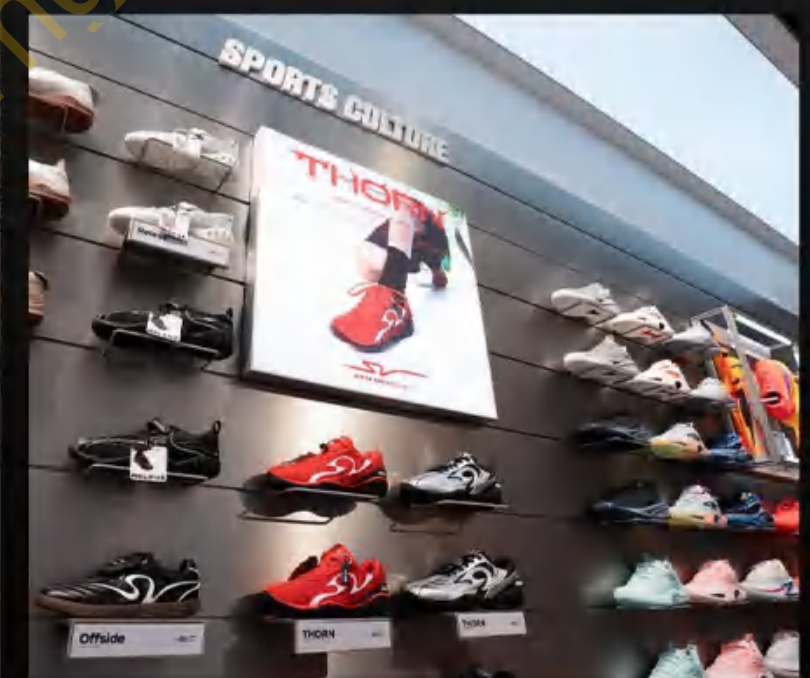

- Modular Apparel Racks: Engineered sleek, wall-mounted metal hanging systems with integrated lighting / to showcase performance apparel with clean, organized precision
- Sculptural Display Counters: Crafted bespoke, thematic central islands and geometric display pedestals / to hero key footwear collections and serve as striking visual focal points.

ANTA Case Study — Malaysia

The Solutions

- Precision Display Systems: Engineered adaptable, matrix-illuminated wall bays and floating apparel racks / to present performance gear with museum-like clarity and order.
- Action-Oriented Counters: Crafted bold, storytelling display pedestals and sleek checkout counters, / colliding raw concrete textures with neon acrylics to create hard-hitting visual hubs.
- Architectural Zoning: Orchestrated a highly navigable layout anchored by luminous ceiling grids and arched window displays, / guiding shoppers effortlessly through distinct performance territories.

ANTA Case Study — Singapore

The Solutions

- Modular Display Racks: Engineered sleek, wall-mounted metal hanging systems and slatted panel walls / to showcase apparel and footwear with clean, highly organized precision.
- Dynamic Zoning & Flow: Integrated illuminated ceiling grids and vibrant visual backdrops into the layout / to seamlessly guide customer flow across distinct athletic categories.

CASE 02 · ERKE

Case Reference

ERKE Case Study — Thailand

The Solutions

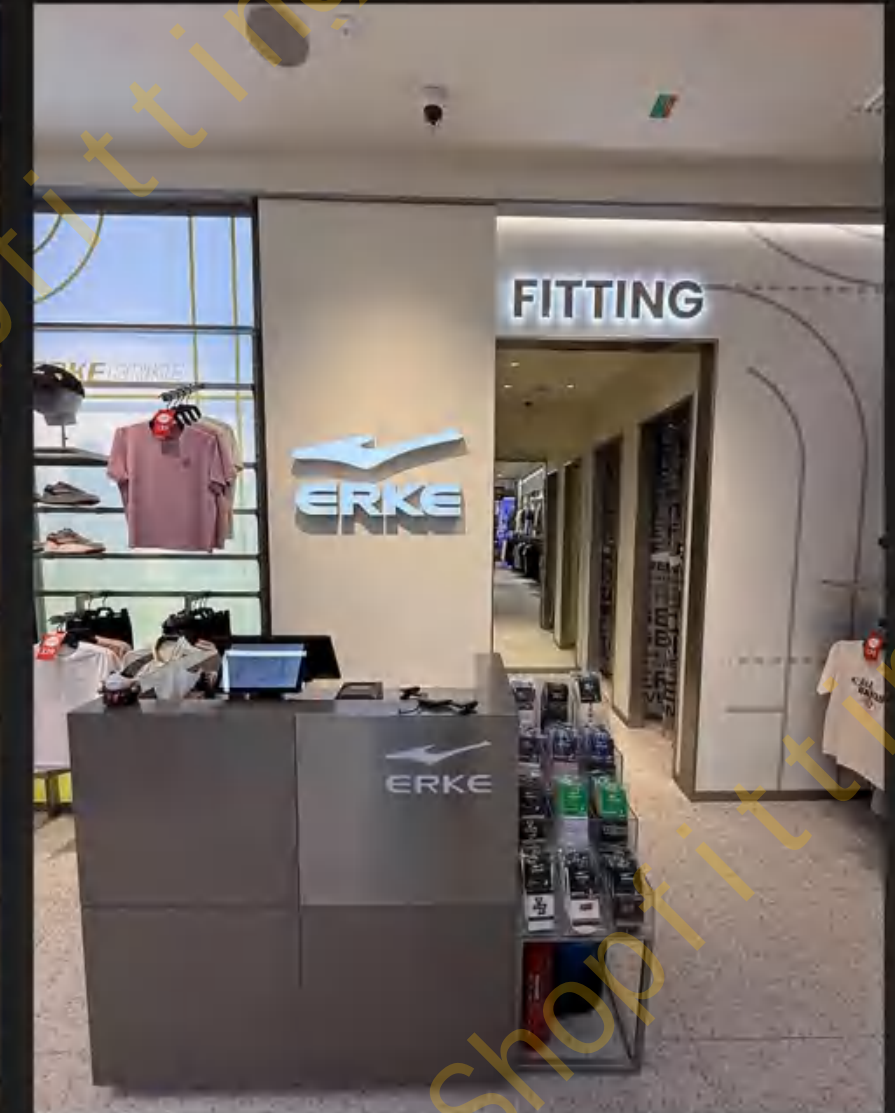

- Modular Apparel Racks: Engineered versatile wall-mounted metal slatwalls and freestanding racks / to ensure highly organized, flexible, and visually clean clothing displays.
- Energized Spatial Layout: Integrated illuminated ceiling structures and clear, illuminated category zoning / to seamlessly guide customer flow and elevate the immersive shopping experience.

ERKE Case Study — Malaysia

The Solutions

- Modular Apparel Racks: Engineered versatile metallic slatwalls and freestanding hanging racks / to showcase performance apparel with clean, highly organized precision.
- Metallic Counters & Islands: Crafted sleek stainless-steel checkout counters and thematic display islands / utilizing illuminated bases and metal accents to hero key footwear and apparel collections.

ERKE Case Study — Vietnam

The Solutions

- Modular Display Racks: Engineered versatile wall-mounted metal slatwalls and hanging systems / to showcase apparel collections with clean, highly organized, and flexible precision.
- High-Density Footwear Walls: Constructed extensive metallic shoe display walls with sleek floating shelves / to highlight core footwear styles while maximizing retail capacity.

CASE 03 · XTEP

Case Reference

XTEP Case Study — Vietnam

The Solutions

- Modular Apparel Racks:

Engineered industrial-style metal slatwalls and versatile freestanding racks / to provide flexible, highly organized, and visually clean clothing displays.

- Vibrant Counters & Islands: Crafted a modern checkout counter featuring a dynamic, iridescent illuminated front panel, / complemented by striking red thematic pedestals to hero key collections.

- Signature Layout & Footwear Walls: Orchestrated an intuitive spatial flow anchored by an expansive footwear wall / featuring distinctive "X" shaped LED backlighting to create a powerful brand focal point.

XTEP Case Study — Malaysia

The Solutions

- Tech-Driven Shoe Walls & Counters: Crafted striking metallic footwear matrices featuring iconic glowing "X" light accents, / complemented by geometric leather seating and futuristic central display pedestals.
- Immersive Spatial Layout: Orchestrated a highly navigable layout utilizing dynamic LED screens and clear category zoning / to effortlessly guide shoppers through a cutting-edge retail journey.

XTEP Case Study — Indonesia

The Solutions

- Matrix Apparel Systems: Engineered industrial-grade corrugated metal walls and versatile freestanding racks / to present apparel collections with architectural precision and flexibility.
- Holographic Counters & Islands: Crafted bespoke central display podiums utilizing iridescent acrylics and neon lighting, / creating highly photogenic, energetic visual focal points.

PROJECT CASE REFERENCE ·

3C & DIGITAL PRODUCTS

KEY HIGHLIGHTS

- Focus on a high-tech feel and user experience
- Display cases featuring lighting, smart display capabilities, and interactive countertops
- Mature "turnkey store" business model

CASE 01 · XIAOMI

Case Reference

XIAOMI Case Study — Malaysia

The Solutions

- Minimalist Wall Shelving: Engineered sleek, recessed wall bays with ultra-thin floating shelves / to display smart appliances and accessories with striking, organized precision.
- Experiential Counters: Crafted multi-tiered island gondolas and long experiential tables / featuring integrated wire management and premium finishes for seamless product testing.

XIAOMI Case Study — Singapore

The Solutions

- Modular Ecosystem Shelving: Engineered versatile wall-mounted wooden shelving and multi-tier display systems / to present a vast array of smart home accessories with meticulous, clutter-free organization.
- Interactive Island Counters: Crafted sleek central experiential tables blending warm wood tones with pristine white finishes / to anchor the space and facilitate seamless product testing.

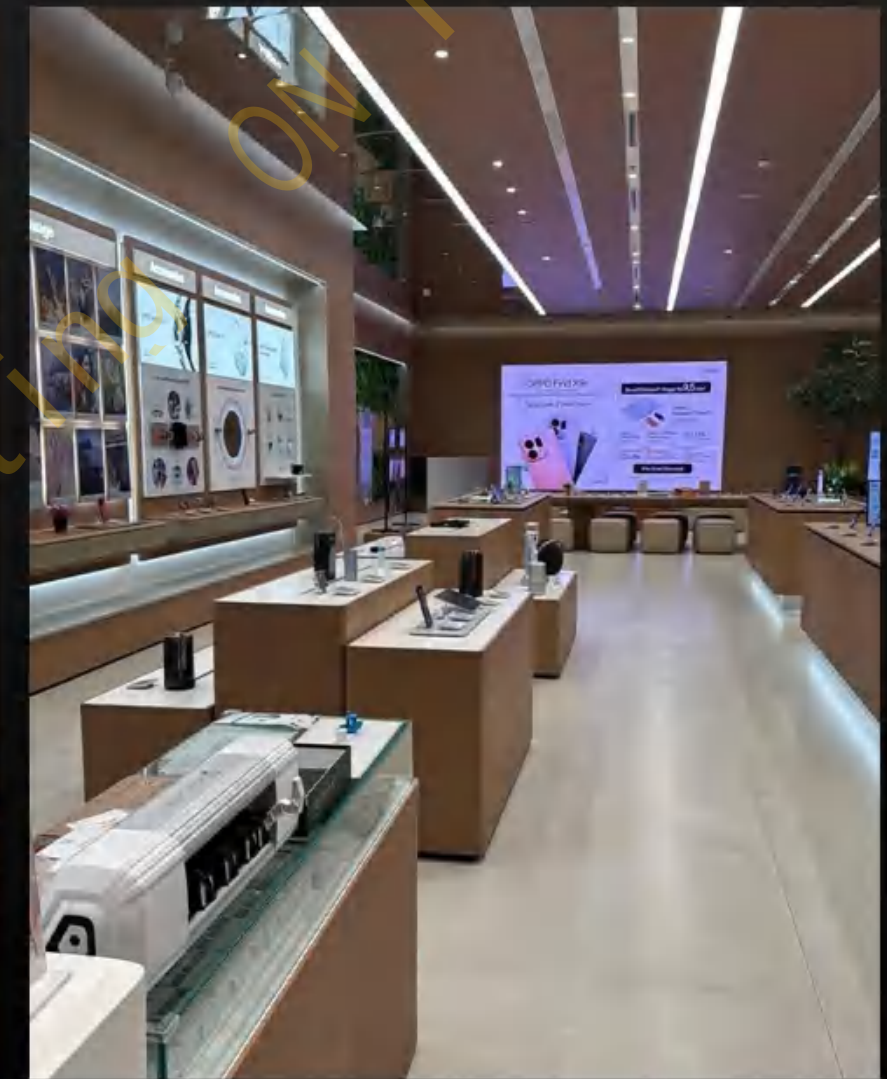

CASE 02 · OPPO

Case Reference

OPPO Case Study — Indonesia

The Solutions

- Cultural Display Walls: Engineered an expansive, floor-to-ceiling wooden library wall and accessory shelving / featuring integrated ambient lighting to elegantly blend tech products with literature and art.
- Experiential Islands & Counters: Crafted multi-tiered wooden display islands and a dedicated café counter (FINDERSCAFE) / to create inviting, comfortable hubs for product interaction and social gathering.

OPPO Case Study — Malaysia

The Solutions

- Illuminated Wall Shelving: Crafted full-height, wood-toned display walls / to elegantly organize devices, IoT accessories, and lifestyle items.
- Experiential Tables: Deployed minimalist wooden interaction counters / to anchor the open floor and facilitate product discovery.

OPPO Case Study — Indonesia

The Solutions

- Lifestyle Bookshelves & Displays: Engineered floor-to-ceiling wooden library walls featuring warm ambient lighting / to elegantly showcase smart devices alongside curated books and lifestyle pieces.

HUAWEI

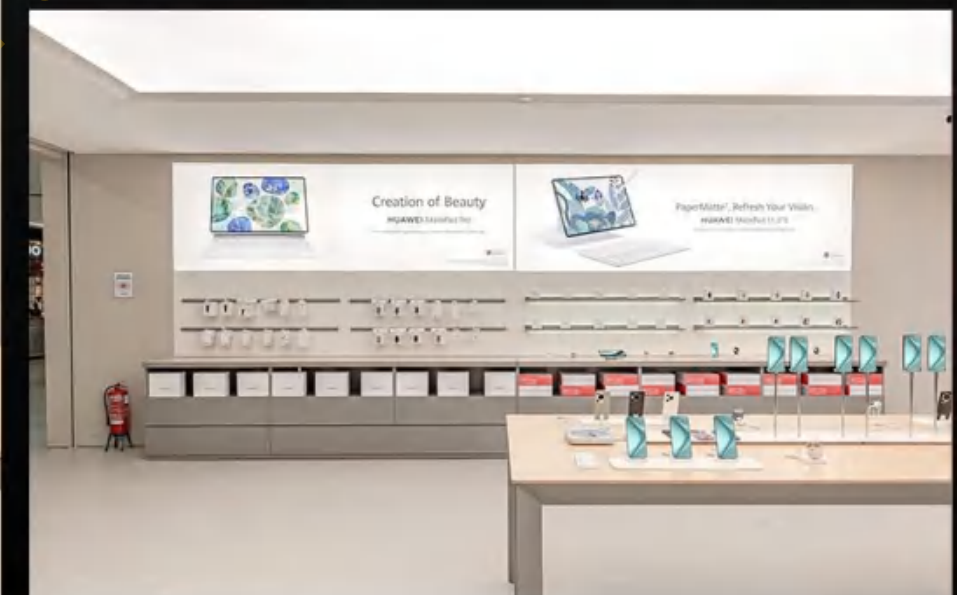

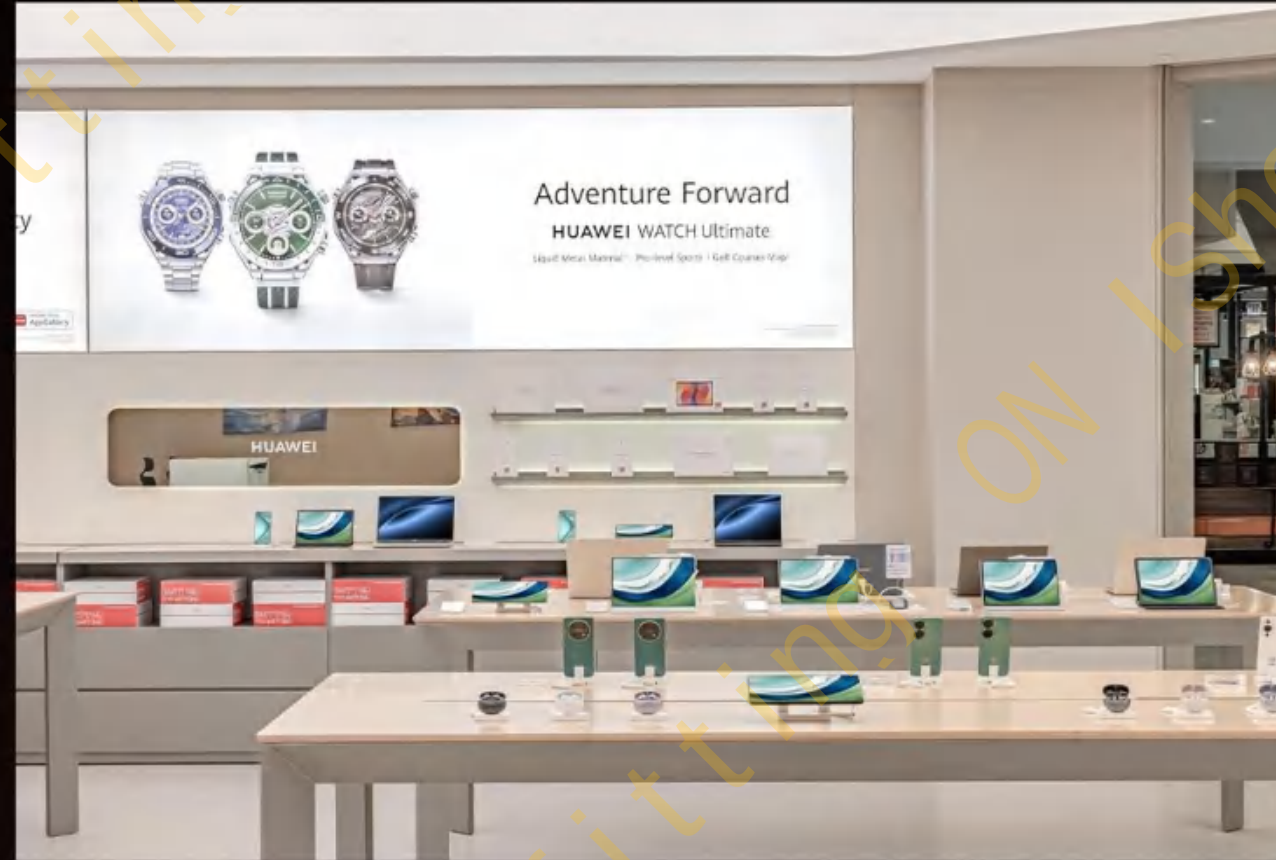

CASE 03 · HUAWEI

Case Reference

HUAWEI Case Study — Malaysia

The Solutions

- Luminous Wall Shelving: Engineered sleek wall-mounted accessory displays integrated with oversized illuminated backdrops / to hero smart devices and wearables with gallery-like precision.
- Warm Experiential Counters: Crafted minimalist, wood-finished central island tables / to anchor the open layout and provide a comfortable, hands-on testing environment.
- Daylight Spatial Design: Deployed a massive, continuous luminous ceiling structure / to bathe the entire store in soft, shadowless light, instantly elevating the premium retail atmosphere.

HUAWEI Case Study — Philippines

The Solutions

- Illuminated Display Bays:

Engineered sleek wall-mounted shelving integrated with oversized luminous lightboxes / to present the smart device ecosystem with museum-grade precision and high visual impact.

- Linear Experiential Tables:

Crafted minimalist, wood-toned interactive tables with sleek metallic profiles / to anchor the central layout and invite boundless, hands-on product exploration.

- Unified Zonal Layout: Seamlessly connected distinct retail, workshop (Discover Now), and service zones beneath a massive continuous luminous ceiling / to create a bright, shadowless, and deeply immersive brand environment.

Lukfook Joaillerie

PROJECT CASE REFERENCE · HIGH-END JEWELRY AND WATCHES

KEY HIGHLIGHTS

- High craftsmanship standards and premium materials
- High-end glass display cabinets; illuminated, theft-resistant display cases

CHOW TAI FOOK

CASE 01 · CHOW TAI FOOK

Case Reference

Chow Tai Fook Case Study — Bangkok

The Solutions

- Premium Display Cabinets: Engineered freestanding wooden showcases and illuminated wall niches with brass accents / to flawlessly present fine jewelry with museum-like precision.
- Signature Island Counter: Crafted a striking, circular signature-red central display counter featuring plush seating / to anchor the space and elevate the interactive customer service experience.

CHOW TAI FOOK

Chow Tai Fook Case Study — Singapore

The Solutions

- Iconic Visual Palette: Applied the brand's signature crimson red alongside warm walnut panels / to craft a visually striking and culturally resonant boutique environment.
- Curved Central Islands: Designed a statement circular display counter in high-gloss red / acting as a spatial focal point to encourage 360-degree interactive browsing.
- Bespoke Jewelry Showcases: Engineered elegant glass-and-wood freestanding cabinets and illuminated wall niches / to present fine jewelry collections with ultimate clarity and prestige.

Lukfook Joaillerie

六福
LUKFOOK

CASE 02 · LUKFOOK JEWELLERY

Case Reference

Lukfook Jewellery Case Study — Malaysia

The Solutions

- Bespoke Jewelry Showcases: Engineered elegant, champagne-gold perimeter wall cabinets and hexagonal freestanding glass units / to present exquisite jewelry with museum-grade brilliance and clarity.
- U-Shaped Island Counter: Crafted a massive, continuous U-shaped central display island featuring plush bespoke seating / acting as the interactive heart of the store for 360-degree personalized service.

Lukfook Jewellery Case Study — Vietnam

The Solutions

- Artisan Wall Niches: Engineered illuminated wall-mounted display niches framed against premium marble backdrops / to present masterpiece collections with gallery-like prestige and clarity.
- Geometric Island Counters: Crafted bespoke curved and hexagonal glass display islands paired with elegant lounge seating / to facilitate 360-degree, personalized customer consultations.

PROJECT CASE REFERENCE · TEA DRINKS AND CATERING

KEY HIGHLIGHTS

- Specializing in service counters, product display cabinets, and snack display cases.

CASE 01 · CHAGEE

Case Reference

CHAGEE Case Study — Thailand

The Solutions

- Architectural Centerpiece:

Engineered a breathtaking cylindrical glass display tower encircled by premium metallic seating / acting as the structural and visual anchor of the ground floor.

- Thematic Retail Displays: Crafted elegant, champagne-gold freestanding pedestals and illuminated shelving / to beautifully showcase the brand's exclusive teaware and merchandise collections.

- Cultural Zonal Layout: Designed a sweeping, illuminated staircase leading to a mezzanine adorned with hand-painted heritage murals / creating an elevated, serene retreat for the ultimate tea-drinking experience.

CHAGEE Case Study — Singapore

The Solutions

- Apparel & Lifestyle Displays: Engineered bespoke floating shelves and dedicated hanging apparel racks / to elegantly showcase branded clothing, tea accessories, and cultural merchandise.
- Illuminated Service Counters: Crafted a striking ordering counter featuring intricate light-filtering monogram patterns / to serve as the visual and operational heart of the store.

Validate the Concept Once, Replicate the Standard

Retail rollout is not simple repetition. ONI converts the pilot-store experience into a controlled system that can be adapted and reproduced across multiple locations.

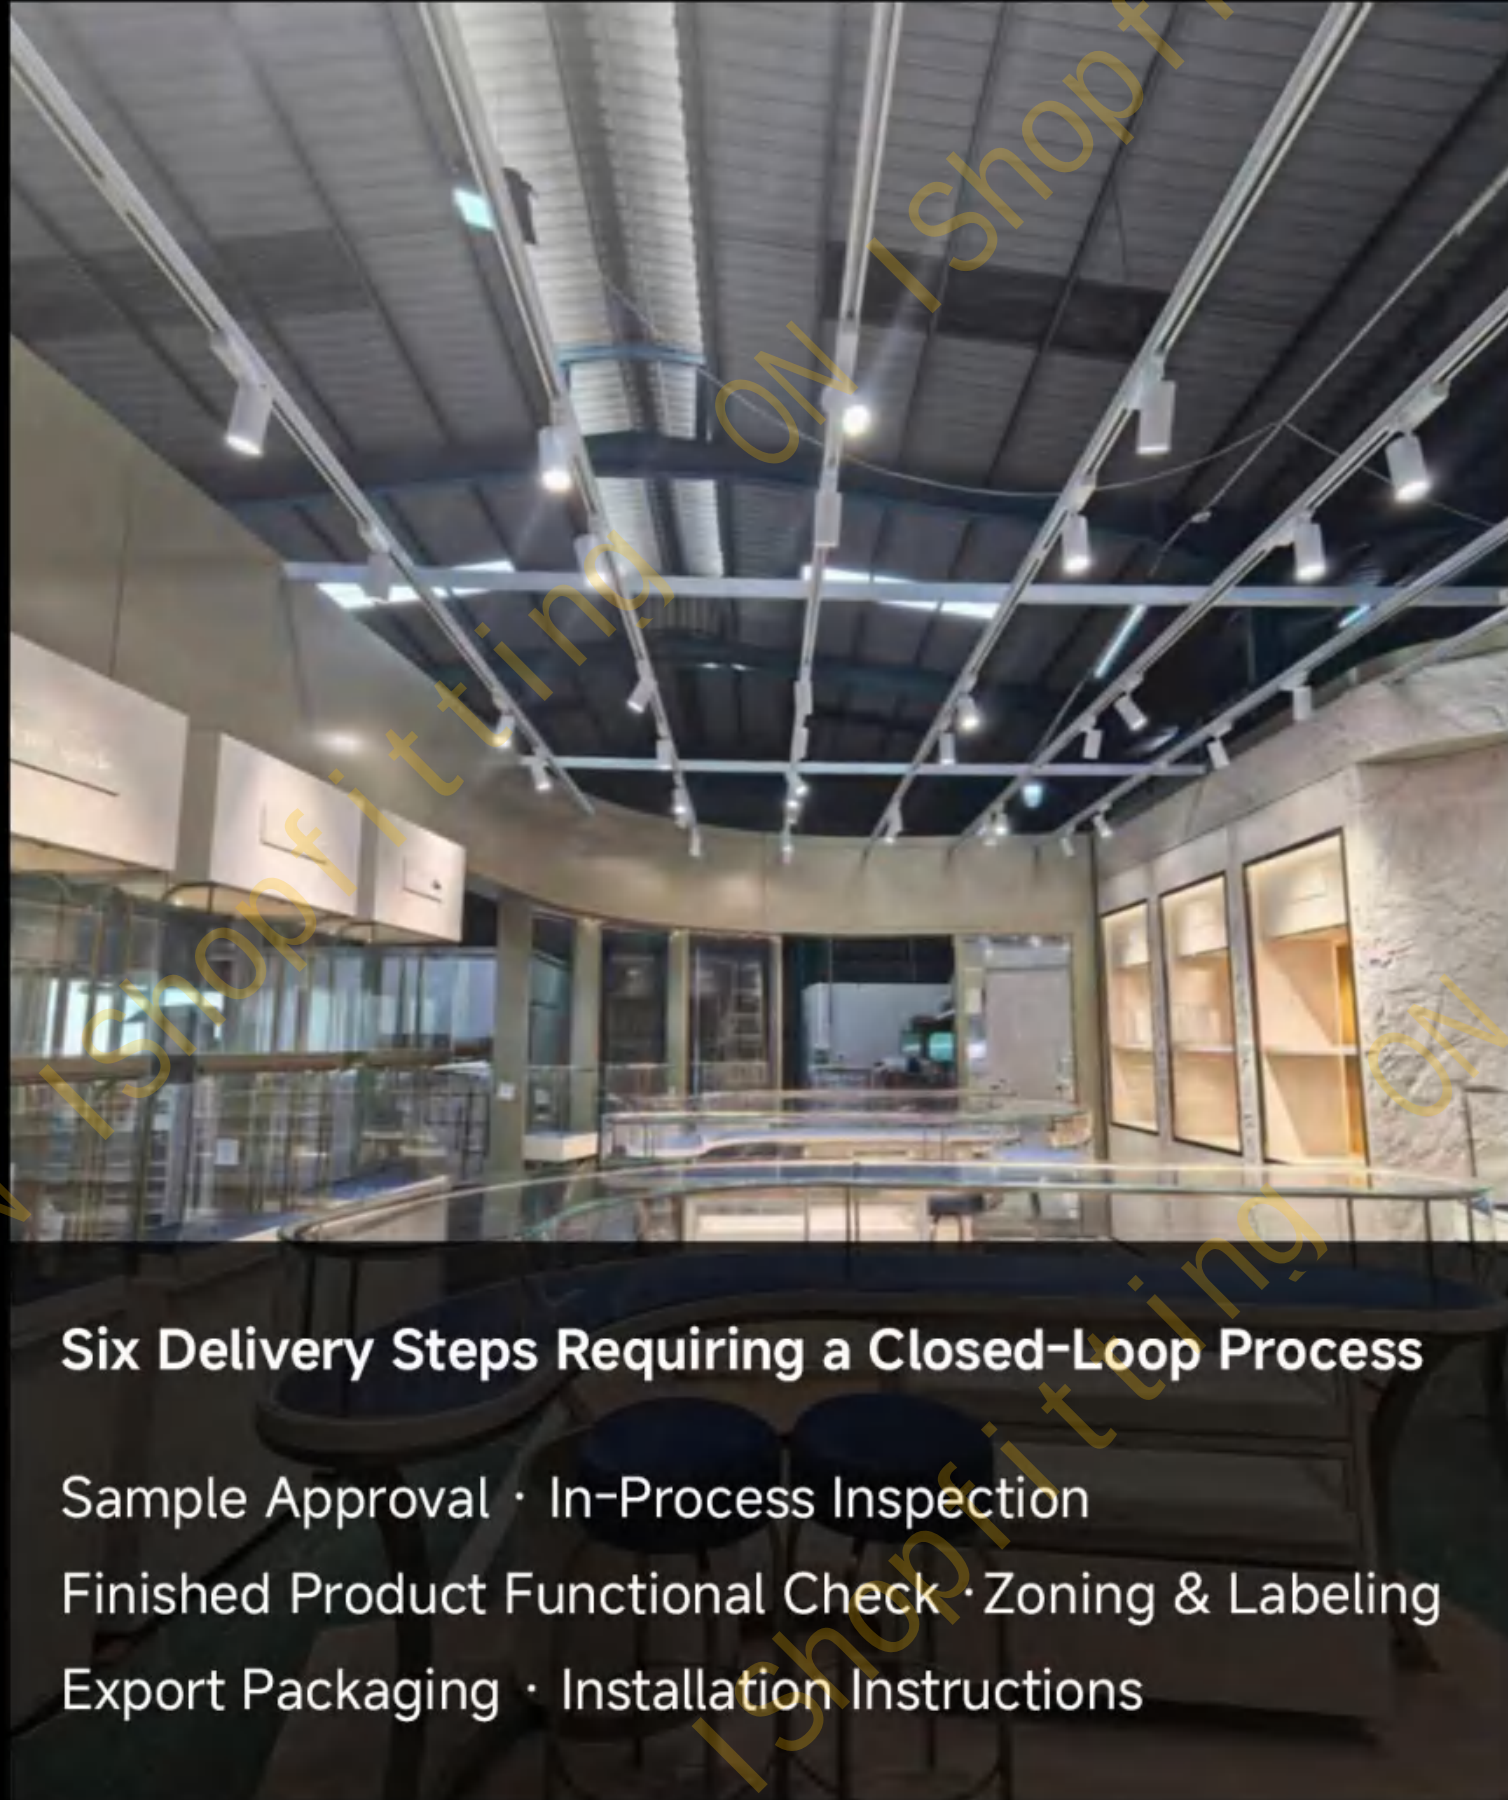

Areas Requiring Standardization

- Core dimensions and structure
- Materials, colors, and surface finishes
- Lighting, hardware, and electrical configurations
- Modular components
- BOM and drawing revisions
- Packaging, labeling, and installation logic

Quality and Export Delivery

Overseas projects must be engineered backward from the installation site.

Six Delivery Steps Requiring a Closed-Loop Process

Sample Approval · In-Process Inspection

Finished Product Functional Check · Zoning & Labeling

Export Packaging · Installation Instructions

WHY CHOOSE ONi?

China Manufacturing Strength, Translated into Store-opening Certainty

01

Custom Manufacturing

Integrated 3D development, engineering, materials, production, QC and export packaging.

02

Multi-category Fluency

Fixture logic adapted to beauty, jewelry, fashion, electronics, lifestyle and furniture.

03

Overseas Execution

Export-ready coordination for logistics, installation and rollout consistency.

04

Factory-direct Agility

Flexible customization, direct communication and controlled production.

**25 YEARS OF
SHOPFITTING EXPERIENCE**

LET'S TURN YOUR NEXT SOUTHEAST ASIA STORE INTO REALITY

From pilot-store development to multi-location rollout, ONI provides stable, flexible and execution-ready custom fixture solutions.
